Inaugural Roundtable: Open European Network for ENTERprise InnOVation in High Value Manufacturing (ENTOV-HVM)

Wednesday January 22nd, 2020 at the University of Applied Sciences in Zweibrücken, Germany.

Overview

- **What:** Face-to-face launch-event for the Open European Network for ENTERprise InnOVation in High Value Manufacturing (ENTOV-HVM).
- **Aim:** Meet other (potential) proposal members, align COST proposal roadmap (events), finalize ERASMUS+ Knowledge Alliance proposal, discuss ERASMUS MUNDUS Joint-Degree programme offering and "test" one-day training materials to be delivered the following day. Explore further proposal and collaboration opportunities.
- **Benefit:** Build and enable the team for proposal creations and deliveries. Discover and participate in new proposal opportunities.

ENTOV-HVM aims to uncover such exchanges through living systems based research methods. It is a multidisciplinary network of experienced diffusion of innovation stakeholders collaborating with early career researchers and young innovators through techniques such as training and scientific missions, joint research-industry workshops, and living labs to help unravel the dynamics of the diffusion of innovation in high value manufacturing. Learning is disseminated through the techniques, conference contributions, journal papers, and mini-conferences to inform policy developments, entrepreneurship and innovation practices at all levels. We intend to work hard during the day and play a bit in the evening!

The event is hosted jointly by the Competency Center "OPINNOMETH" (Operational Excellence and Innovation Methods) at the University of Applied Sciences in Kaiserslautern and the ed-Media e.V. Institute for Innovation in Education and Business Processes.

Further details are available at www.innovation-web.eu, on our LinkedIn Group at www.linkedin.com, our blog at www.innovation-web.eu, our Researchgate project page at www.researchgate.net and our Facebook page at: www.facebook.com/groups. You can also follow us via Twitter: [@owschwabe](https://twitter.com/owschwabe) (#innovationweb) and the LinkedIn Group page <https://www.linkedin.com/company/entov>.

The costs for participating at the event are planned to be covered by sponsors and this will not include costs related to travel, lodging and lodging. In the event of failure to gain sufficient sponsorship a small contribution may be required by participants. The number of participants is limited to 20. Registration is required by 12 noon CET on Monday November 18th via email to Dr. Oliver Schwabe.
